Subject: Antibiotics in animal feed.
Auto forwarded by a Rule

Dear Commissioner Henney:

I am writing to urge you to support the ban on use of medically useful antibiotics in animal feed. Adding these to feed in order to promote growth can make bacteria resistant to those antibiotics. And that can leave physicians with no way to treat life-threatening bacterial infections in humans. That's why I support the petition filed by the Center for Science in the Public Interest (CSPI)

Thank you for your consideration.
